Daniel Fillion Joins Teknika HBA as Vice-President of Business Development

Sherbrooke, January 15, 2010 – Management at Teknika HBA is pleased to announce the appointment of Daniel Fillion as Vice-President of Business Development. Mr. Fillion will begin his duties on February 8.

Well-known in the business world, Daniel Fillion is a mechanical engineer with more than 20 years of experience in engineering consulting. He has developed expertise in energy efficiency, an area that has interested him since the beginning of his career. Mr. Fillion was previously part of the CIMA+ firm where he was Vice-President of Building, and later Vice-President of Business Development for the Estrie and Montérégie regions.

As Vice-President of Business Development at Teknika HBA, Daniel Fillion will work closely with Normand Brousseau, Senior Vice-President, Business Development, to develop and implement business strategies for all of the markets the company addresses. Mr. Fillion will also be a member of the firm's executive committee.

"Daniel Fillion is coming to Teknika HBA with a background that boasts a wealth of experience and expertise, which will help sustain the outstanding quality of services that Teknika HBA provides to its clients and contribute to the development of new business possibilities in every region of Quebec," said Wilfrid Morin, President and CEO of Teknika HBA.

Founded in 1928, Teknika HBA is a multidisciplinary firm with more than 1000 employees located in 25 offices throughout Quebec. It provides consulting, engineering, and construction engineering services and is involved primarily in the fields of energy, public and private infrastructure, transportation, buildings, industry, the environment and sustainable development, soil and materials, land use and urban planning, and project management. In 2008, Teknika HBA merged with Trow Global to form a company with more than 3000 employees in over 100 offices throughout Canada, the United States and internationally.
